What are the key features of this product?

- This is a fixed rate mortgage product, which means your monthly payments won't change during the term of the product. The initial rate of 4.49% is fixed until 31 January 2028.
- Before this product ends, we'll contact you with the options available. If you do nothing at the end of the product period, our Standard Variable Rate (SVR) will apply, this could mean that your payments increase. We set the SVR and it may go up or down in the future. It is currently set at 7.34% and will not fall below 3.00% at any time during the life of the mortgage.
- This product is available on an Interest Only repayment basis. This means that your monthly repayments will only pay back the interest on your initial loan. The capital balance will not reduce. You must have a suitable method of repaying the initial loan at the end of the mortgage term.
- A £995 product fee is payable. This can be added to the loan on completion; however, this will result in interest being charged on it making the overall fee greater over the term of the mortgage.
- This product is available for properties in England or Wales that have a minimum value of £50,000.
- This product comes with one free standard mortgage valuation for all purchase and remortgage applications.

Who is this product designed for?

This product is designed for customers if you:

- are looking to purchase or remortgage your home.
- wish to repay only the interest on a monthly basis and have a suitable method of repaying your initial loan at the end of the mortgage term.
- want or need the certainty of a fixed monthly payment for the term of the product.

All applications are subject to the Society's general lending criteria, property value and satisfactory status enquiries.
