## What are the key features of this product?

- This is a variable rate mortgage product, which means your monthly payments can go up or down. The initial rate is 4.56% which includes a 2.78% discount from our Standard Variable Rate (SVR) for two years. The interest rate of this mortgage is 'floored', which means that while the rate may increase, it will never fall below 3.06%.
- Before this product ends, we'll contact you with the options available. If you do nothing at the end of the product period, our Standard Variable Rate (SVR) will apply, this could mean that your payments increase. We set the SVR and it may go up or down in the future. It is currently set at 7.34% and will not fall below 3.00% at any time during the life of the mortgage.
- This product is available on a Capital and Interest repayment basis. This means your monthly payments will cover the interest due for the month and a portion of the amount borrowed. Provided all payments due are made in full and on time, your mortgage will be fully repaid at the end of the mortgage term.  
A £495 product fee is payable. This can be added to the loan on completion; however, this will result in interest being charged on it making the overall fee greater over the term of the mortgage.
- This product is available for properties in England or Wales that have a minimum value of £50,000.
- This product comes with one free standard mortgage valuation for additional borrowing applications and home movers.

## Who is this product designed for?

This product is designed for existing borrowers if you:

- are coming to the end of your mortgage deal and wish to transfer to a new product, looking to apply for additional borrowing or moving home.
- wish your monthly payment to include the interest due and a portion of the amount borrowed so that your mortgage will be fully repaid at the end of the mortgage term.
- do not want or need the certainty of a fixed monthly payment for the term of the product.
- have a maximum loan to value (LTV) of 85%, excluding any fees added to the loan. The LTV is calculated using your current mortgage balance and our current assessed valuation of your property.
- want to borrow up to a maximum loan of £1,500,000. Loan size restrictions apply see the Loan Size section in the Key Product Information.

All applications are subject to the Society's general lending criteria, property value and satisfactory status enquiries.

## Representative Example

The overall cost for comparison is given as the Annual Percentage Rate of Charge (APRC) and includes all fees incurred relating to the mortgage and product. The APRC allows you to compare the cost of different products.

On a mortgage of £250,000.00 on a capital and interest (repayment) basis payable over 25 years initially on a discounted variable rate of 4.56% (equal to 2.78% discount off our Standard Variable Rate) for 2 years.
